**Importance:** High

Hi Ksenija,

You probably have tons of new and exciting emails in your inbox from the past few weeks. I just wanted to prioritize some of the more interesting ones, and give you some notes from the past few weeks on tire crumb et. al.

Tire Crumb

- Barnes/Kathleen's Tire Crumb Briefing was moved to 1:50-3:00pm on August 25 to allow for more time for the presentation, tire video, and Q&As
- Contacted the recycling plants we had relationships with and passed the list on to ORD. As of yet, [redacted] said yes, [redacted] said no
- Please see attached the notes from the Communications call 8/10/16
- Please see attached the notes from the CEQ Call on 8/11/16
- The installation timeline is tentatively scheduled for August 17 – August 22. AstroTurf will follow-up a few days in advance to schedule a meeting on-site with the crew to answer questions
- Putting the final touches on the transcript for AstroTurf and it is on its way

NGOs

- Finishing touches for the NGO notes are on their way
- Planning our last NGO meeting with Amy Stephen's group, doodle poll is out and the responses are coming in

C&D

- Please find attached the notes from the Emerging Wallboard meeting. Really interesting things that were talked about including asbestos/lead concerns in wallboard and the Quartz Database (appears similar to the C&D Study)

Other Business

- FAITAS continuing learning requirement to maintain TOCOR status. They let us know that the 20 hours of contract-related classes through FAITAS must be completed by the end of September
